Bids and Contracts

Volume 14, Number 178

November 4, 1998

This newsletter is San Francisco's weekly listing of bids for equipment and general services, construction, A&E, consultants, and concessions and leases. Where you should call for more information, or where you should call or go to get a copy of a bid, depends on what department is managing the bid. All phone numbers are area code (415), unless otherwise indicated.

The first "Equipment, Supplies and General Services" section lists bids managed by the Purchasing Department. If you have a question about a Purchasing bid, before calling Purchasing you should either: (1) view the line-item information on the Internet; or (2) obtain a copy of the bid. For Internet information, or to have a Purchasing bid sent to you, follow the instructions on the last page. To bid on transactions listed in other sections, call the contracting official for the department or agency which is offering the contract.

Volume 14, Number 179

November 10, 1998

This newsletter is San Francisco's weekly listing of bids for equipment and general services, construction, A&E, consultants, and concessions and leases. Where you should call for more information, or where you should call or go to get a copy of a bid, depends on what department is managing the bid. The first "Equipment, Supplies and General Services" section lists bids managed by the Purchasing Department. If you have a question about a Purchasing bid, before calling Purchasing you should either: (1) view the line-item information on the Internet; or (2) obtain a copy of the bid. **For Internet information, or to have a Purchasing bid sent to you, follow the instructions on the last page.** To bid on transactions listed in other sections, call the contracting official for the department or agency which is offering the contract.

Bids and Contracts

Volume 15, Number 7

February 17, 1999

This newsletter is San Francisco's weekly listing of bids for equipment and general services, construction, A&E, consultants, and concessions and leases. Where you should call for more information, or where you should call or go to get a copy of a bid, depends on what department is managing the bid. All phone numbers are area code (415), unless otherwise indicated.

The first "Equipment, Supplies and General Services" section lists bids managed by the Purchasing Department. If you have a question about a Purchasing bid, before calling Purchasing you should either: (1) view the line-item information on the Internet; or (2) obtain a copy of the bid. For Internet information, or to have a Purchasing bid sent to you, follow the instructions on the last page. To bid on transactions listed in other sections, call the contracting official for the department or agency which is offering the contract.

Bids and Contracts

Volume 15, Number 9

March 3, 1999

This newsletter is San Francisco's weekly listing of bids for equipment and general services, construction, A&E, consultants, and concessions and leases. Where you should call for more information, or where you should call or go to get a copy of a bid, depends on what department is managing the bid. All phone numbers are area code (415), unless otherwise indicated.

The first "Equipment, Supplies and General Services" section lists bids managed by the Purchasing Department. If you have a question about a Purchasing bid, before calling Purchasing you should either: (1) view the line-item information on the Internet; or (2) obtain a copy of the bid. For Internet information, or to have a Purchasing bid sent to you, follow the instructions on the last page. To bid on transactions listed in other sections, call the contracting official for the department or agency which is offering the contract.

Bids and Contracts

Volume 15, Number 11

March 17, 1999

This newsletter is San Francisco's weekly listing of bids for equipment and general services, construction, A&E, consultants, and concessions and leases. Where you should call for more information, or where you should call or go to get a copy of a bid, depends on what department is managing the bid. All phone numbers are area code (415), unless otherwise indicated.

The first "Equipment, Supplies and General Services" section lists bids managed by the Purchasing Department. If you have a question about a Purchasing bid, before calling Purchasing you should either: (1) view the line-item information on the Internet; or (2) obtain a copy of the bid. For Internet information, or to have a Purchasing bid sent to you, follow the instructions on the last page. To bid on transactions listed in other sections, call the contracting official for the department or agency which is offering the contract.

Bids and Contracts

Volume 15, Number 12

March 24, 1999

This newsletter is San Francisco's weekly listing of bids for equipment and general services, construction, A&E, consultants, and concessions and leases. Where you should call for more information, or where you should call or go to get a copy of a bid, depends on what department is managing the bid. All phone numbers are area code (415), unless otherwise indicated.

The first "Equipment, Supplies and General Services" section lists bids managed by the Purchasing Department. If you have a question about a Purchasing bid, before calling Purchasing you should either: (1) view the line-item information on the Internet; or (2) obtain a copy of the bid. For Internet information, or to have a Purchasing bid sent to you, follow the instructions on the last page. To bid on transactions listed in other sections, call the contracting official for the department or agency which is offering the contract.

Bids and Contracts

Volume 15, Number 13

March 31, 1999

This newsletter is San Francisco's weekly listing of bids for equipment and general services, construction, A&E, consultants, and concessions and leases. Where you should call for more information, or where you should call or go to get a copy of a bid, depends on what department is managing the bid. All phone numbers are area code (415), unless otherwise indicated.

The first "Equipment, Supplies and General Services" section lists bids managed by the Purchasing Department. If you have a question about a Purchasing bid, before calling Purchasing you should either: (1) view the line-item information on the Internet; or (2) obtain a copy of the bid. For Internet information, or to have a Purchasing bid sent to you, follow the instructions on the last page. To bid on transactions listed in other sections, call the contracting official for the department or agency which is offering the contract.

April 14, 1999

This newsletter is San Francisco's weekly listing of bids for equipment and general services, construction, A&E, consultants, and concessions and leases. Where you should call for more information, or where you should call or go to get a copy of a bid, depends on what department is managing the bid. All phone numbers are area code (415), unless otherwise indicated.

The first "Equipment, Supplies and General Services" section lists bids managed by the Purchasing Department. If you have a question about a Purchasing bid, before calling Purchasing you should either: (1) view the line-item information on the Internet; or (2) obtain a copy of the bid. For Internet information, or to have a Purchasing bid sent to you, follow the instructions on the last page. To bid on transactions listed in other sections, call the contracting official for the department or agency which is offering the contract.

Volume 15, Number 17

April 28, 1999

This newsletter is San Francisco's weekly listing of bids for equipment and general services, construction, A&E, consultants, and concessions and leases. Where you should call for more information, or where you should call or go to get a copy of a bid, depends on what department is managing the bid. All phone numbers are area code (415), unless otherwise indicated.

The first "Equipment, Supplies and General Services" section lists bids managed by the Purchasing Department. If you have a question about a Purchasing bid, before calling Purchasing you should either: (1) view the line-item information on the Internet; or (2) obtain a copy of the bid. For Internet information, or to have a Purchasing bid sent to you, follow the instructions on the last page. To bid on transactions listed in other sections, call the contracting official for the department or agency which is offering the contract.

May 12, 1999

This newsletter is San Francisco's weekly listing of bids for equipment and general services, construction, A&E, consultants, and concessions and leases. Where you should call for more information, or where you should call or go to get a copy of a bid, depends on what department is managing the bid. All phone numbers are area code (415), unless otherwise indicated.

The first "Equipment, Supplies and General Services" section lists bids managed by the Purchasing Department. If you have a question about a Purchasing bid, before calling Purchasing you should either: (1) view the line-item information on the Internet; or (2) obtain a copy of the bid. For Internet information, or to have a Purchasing bid sent to you, follow the instructions on the last page. To bid on transactions listed in other sections, call the contracting official for the department or agency which is offering the contract.

Bids and Contracts

Volume 15, Number 21

May 26, 1999

This newsletter is San Francisco's weekly listing of bids for equipment and general services, construction, A&E, consultants, and concessions and leases. Where you should call for more information, or where you should call or go to get a copy of a bid, depends on what department is managing the bid. All phone numbers are area code (415), unless otherwise indicated.

The first "Equipment, Supplies and General Services" section lists bids managed by the Purchasing Department. If you have a question about a Purchasing bid, before calling Purchasing you should either: (1) view the line-item information on the Internet; or (2) obtain a copy of the bid. For Internet information, or to have a Purchasing bid sent to you, follow the instructions on the last page. To bid on transactions listed in other sections, call the contracting official for the department or agency which is offering the contract.

July 7, 1999

This newsletter is San Francisco's weekly listing of bids for equipment and general services, construction, A&E, consultants, and concessions and leases. Where you should call for more information, or where you should call or go to get a copy of a bid, depends on what department is managing the bid. All phone numbers are area code (415), unless otherwise indicated.

The first "Equipment, Supplies and General Services" section lists bids managed by the Purchasing Department. If you have a question about a Purchasing bid, before calling Purchasing you should either: (1) view the line-item information on the Internet; or (2) obtain a copy of the bid. For Internet information, or to have a Purchasing bid sent to you, follow the instructions on the last page. To bid on transactions listed in other sections, call the contracting official for the department or agency which is offering the contract.

If you have a question about a Purchasing bid, before calling Purchasing you should either: (1) view the line-item information on the Internet; or (2) obtain a copy of the bid. For Internet information, or to have a Purchasing bid sent to you, follow the instructions on the last page. To bid on transactions listed in other sections, call the contracting official for the department or agency which is offering the contract.

This newsletter is San Francisco's weekly listing of bids for equipment and general services, construction, A&E, consultants, and concessions and leases. Where you should call for more information, or where you should call or go to get a copy of a bid, depends on what department is managing the bid. The first "Equipment, Supplies and General Services" section lists bids managed by the Purchasing Department. If you have a question about a Purchasing bid, before calling Purchasing you should either: (1) view the line-item information on the Internet; or (2) obtain a copy of the bid. For Internet information, or to have a Purchasing bid sent to you, follow the instructions on the last page. To bid on transactions listed in other sections, call the contracting official for the department or agency which is offering the contract.

1998-1040-1 RFP: Public Involvement Program for Transit-oriented Urban Community Plans, and Addendum.

Consultants skilled in public involvement, community participation, public relations and technical writing to assist in developing transit-oriented urban community plans. These transit-oriented urban community plans will draw upon and strengthen community character; will have as their backbone strong pedestrian and transit networks; will strive to engender rich street life; will ease access to jobs, housing, shopping, recreation and other daily needs; will encourage appropriate mixed-use commercial and residential development; will maximize the use of the transit network; and will strive to minimize dependence on the private automobile.

The central purpose of the public involvement process is to facilitate and document an open, creative, and constructive discussion among all stakeholders---the City, neighborhoods, and special interest groups---about the appropriate role of transit-oriented planning in the city. The goal is to provide Planning Department the tools it needs to create transit-oriented urban community plans that represent the diverse interests in the city.

Several files are attached to this page (MS Word, WordPerfect, and Adobe Acrobat files), but they do not constitute the complete RFP package. The Human Rights Comm.'s Schedule A (used to apply for certification as an MBE, WBE or LBE) is not attached, nor is HRC Attachment 2 (containing forms related to the MBE/WBE/LBE Ordinance). For these files, please call HRC at (415) 252-2500. Nor is the MBE/WBE/LBE Ordinance (Chapter 12D.A of the Admin. Code) ; for a copy, go to "http://nt2.scbbs.com/cgi-bin/om_isapi.dll?clientID=4257&depth=3&infobase=SF-1&record={13C1}&softpage=PL_frame".

Bid listing was changed to correct the pre-bid conference from mandatory to optional and to correct its location, and to attach an additional file (500j99w9.doc).

Bid listing was later changed to add the addendum, attached as Word 97 and .pdf files.
